

Pham Manh Tuong

Software Developer Fresher

☎ 0795533253 ✉ mt.tuongpham@gmail.com 📍 Tan Vinh Loc, Binh Chanh, Ho Chi Minh City

OBJECTIVE

Final-year Information Technology student with internship experience in fullstack development. Seeking a Fullstack Developer position to apply and improve my skills in React, Next.js, Node.js, and databases through real-world projects. Passionate about building scalable applications, writing clean code, and continuously growing as a software developer.

EDUCATION

Open University

Oct 2022 - Now

Major: Information Technology

Awarded the Academic Encouragement Scholarship 3 times.

WORK EXPERIENCE

WISDOMROBOTICS

Dec 2025 - Apr 2026

Fullstack Developer Intern/Fresher

- Developed and maintained web applications (ReactJS / Next.js) and mobile apps (React Native)
- Designed and built reusable, scalable component architecture to improve maintainability
- Integrated and handled RESTful APIs, ensuring consistent data flow between frontend and backend
- Debugged and resolved API-related issues
- Implemented authentication flows
- Improved user experience with loading states, skeleton UI, and optimistic updates
- Managed application state using Redux Toolkit / Context API,...
- Refactored and optimized existing code to reduce duplication, improve performance, and enhance code maintainability

SKILLS

Frontend, Backend, Database ReactJs, React Native, NextJs, NodeJs (Express), MongoDB, MySQL, SQL Server

Others Git, Github, Postman, Docker

PROJECTS

Job App - JobPT

June 2025 - July 2025

Fullstack Developer

- **Technologies:** React Native, Django , MySQL, Socket
- **Team size:** 2
- **Feature:** This mobile application allows users to search and apply for jobs through a modern and user-friendly interface. The system supports real-time notifications and messaging using WebSocket for instant updates between recruiters and candidates. Integrated online payment functionality enables premium job posting and featured job services.

Movie Ticket Website - MovieHub

July 2025 - Aug 2025

Fullstack Developer

- **Technologies:** ReactJs, NodeJs (Express), MongoDB, JWT, Tailwind, Socket
- **Features:** This system allows users to register and log in with roles for admins and customers. Admins can manage cinemas, movies, showtimes, ticket types, and user bookings. Customers can browse movies, view showtimes, select seats, and purchase tickets online with real-time seat availability updates and secure payment integration. The platform also enables users to leave reviews and ratings for movies, as well as engage in real-time chat for instant communication with support staff or other users.
